Steve's Sound-Off

July 2015

Dear Friends and Colleagues:

Learning in the 21st Century is not only about what you know, it's what you *do* with what you know. From leadership growth in West Virginia, to job skill development in Virginia, to an immersive learning experience in India, students and administrators are getting on board and applying their knowledge in impactful ways.

-Steve

"Edwards Educational Services has been instrumental in my development as an instructional leader not only on a school level but also in my capacity as a district administrator. Our concerted work on developing strong school administrators has focused on supporting principals in their development of school processes and structures conducive to student and teacher learning. Edwards Ed has become a part of our

district's team and helped us work together to ultimately meet the needs of our students and teachers."
